Received 2019 March 15; **Accepted** 2019 May 19.

This retracts the article "[RETRACTED ARTICLE: Correlation Between Anthropometric, Physical Fitness Traits, Lung Capacity, and Success of Iranian Elite Greco-Roman Wrestlers](#)".

Following the author's declaration received to the Asian Journal of Sports Medicine on 15 March 2019 (Ticket #378448) and in line with COPE flowchart (<http://bit.ly/2fCptzz>) about duplicate publications, the editor-in-chief of the journal decided to retract the mentioned article from the publishing process. Based on a written document, the corresponding author (Hossein Taheri Chadorneshin) declared that it has been previously published by the same authors in a Turkish journal [International Journal of Science Culture and Sport (IntJSCS)]. Most of the text and all the tables are the same as in the article that was published in Turkish journal. The author agreed to this retraction.

Kind Regards,
Editor-in-Chief,
Ziaee, Vahid,
Tehran, IR Iran
