

Supplementary Figures

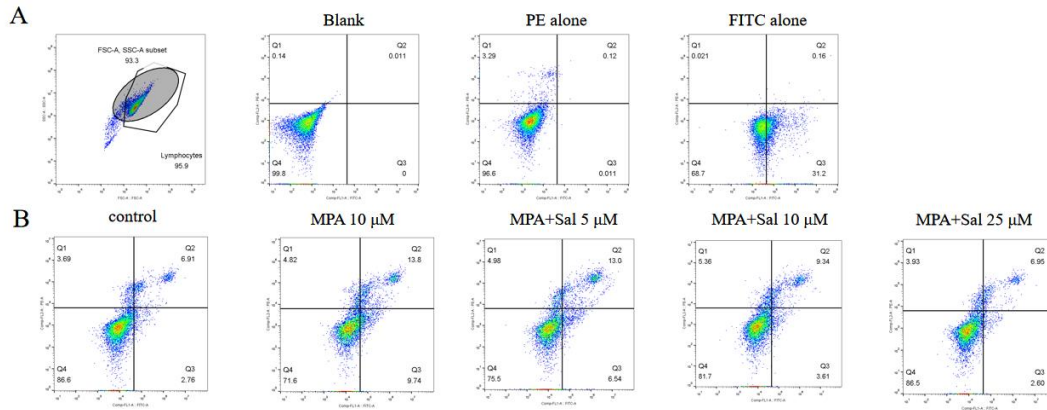

Figure S1 Caco-2 Cell flow cytometry gating strategy (Apoptosis). (A) Proportion of cells incubated with PE/FITC fluorescent dyes alone or without dyes. (B) Proportion of cells incubated with PE and FITC fluorescent dyes.

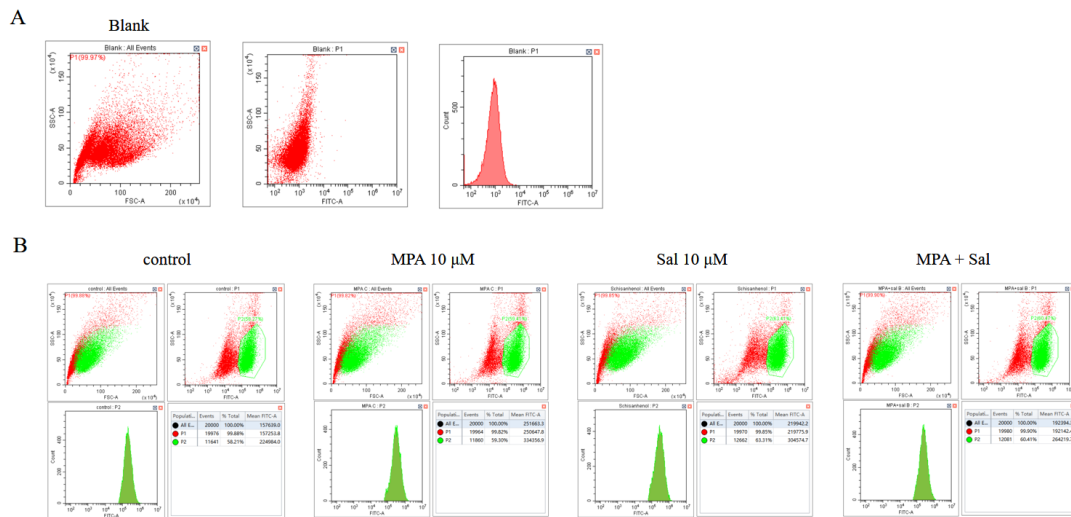

Figure S2 Caco-2 Cell flow cytometry gating strategy (ROS). (A) Proportion of cells incubated without H₂DCFDA probe. (B) Proportion of cells incubated with H₂DCFDA probe.
