The first international congress of military medicine and pharmacy was held in July 1921, in Brussels, Belgium. The international committee on military medicine (ICMM) is an international and intergovernmental organization constituted by more than 100 States including I. R. Iran (1). The 42nd world congress of the ICMM was held at Vigyan Bhawan, New Delhi, India, from 19th to 24th November 2017 and delegates from all over the world met in India. The congress was hosted by the armed forces medical services, ministry of defence, India. The congress had simultaneous scientific sessions, poster presentations, roundtables, panel discussions, and workshops encompassing the broad themes (2). Iranian researchers of AJA University of Medical Sciences attended to the 42nd World Congress of ICMM and presented their scientific papers in the field of military medicine in the scientific sessions, poster presentations, roundtables, and panel discussions (Figure 1).
