

Appendix 1. Supplementary data: Three-day bladder function questionnaire

Patient's age:	Age:
Hospital no:	Weight:
Date:	Height:

Over the last three days:	Never	Yes	1 - 3	3 - 7	> 7
Does your child wet during the day?					
Does your child wet during the night?					
How many times a day does your child void?					
My child is too quick to finish his/her void?					
My child has a sudden feeling of having to urinate immediately?					
My child holds by crossing his/her legs.					
My child wets on the way to the toilet.					
My child misses his/her bowel movement every day.					

Appendix 2.

Equation 1.

$$n = \frac{\left(Z_{1-\frac{\alpha}{2}} + Z_{1-\beta}\right)^2 [P_1(1 - P_1) + P_2(1 - P_2)]}{(P_1 - P_2)^2}$$

$$Z_{1-\frac{\alpha}{2}} = 1.96$$

$$Z_{1-\beta} = 0.85$$

$$P_1 = 0.241$$

$$P_2 = 0.145$$
