This corrects the article [Identification and Confirmation of a New Species of Velvet Ants as a Sting Agent in Homes and Traditional Carpet Weaving Sites in Kashan, Iran](#).

In the abovementioned article (1), the newly described species name was incompletely written as *Dentilla dehghanii* sp. nov. throughout the text and in the captions of the figures.

The correct and complete species name is:

Dentilla dehghanii Lelej

This correction applies to all instances in the article where the species name appears incorrectly, including the main text, tables, and figure captions.

The authors regrets this error and apologizes for any confusion it may have caused. The correction does not affect the scientific results, interpretations, or conclusions of the article.

Sincerely Yours

Hamid Kassiri
