About this report

This open peer review (OPR) report shows the public comments made on this article during peer review, by the reviewers, the associate editor and the editor-in-chief, for every revision round, together with the authors' replies. Comments appear only with the consent of the people who wrote them. Reviewers who chose to sign their report are named; the others are shown as "Referee". Comments are edited for language only, and confidential remarks to the editors are not included.

MINOR REVISION 11 Jun 2024

Dear author,
The article has a good topic and an acceptable design.
Reduce the word count, especially in the research tools section.
regards,

Associate Editor

AUTHORS' RESPONSE TO REVIEWERS

Authors' reply to reviewers

The next pages contain the authors' point-by-point reply to the comments of this revision round, as submitted with the revised manuscript. It is published as the authors wrote it.

Response to Reviewers

To: Editor-in-Chief of International Journal of High Risk Behaviors and Addiction

Dear Dr. Nour-Mohammad Bakhshani,

Thank you for providing us the opportunity to submit a revised version of our manuscript, “Structural Relationship between Dark Personality Traits, Morbid Curiosity, and Cognitive Abilities with Addiction Vulnerability,” for publication in the International Journal of High Risk Behaviors and Addiction. We appreciate the time and effort that you and the reviewers have invested in providing valuable feedback on our manuscript. We are grateful for the insightful comments and constructive suggestions that have significantly improved our paper. In accordance with the reviewers’ recommendations, we have reduced the word count of the manuscript. The changes applied to the text of the article are highlighted in green.
