About this report

This open peer review (OPR) report shows the public comments made on this article during peer review, by the reviewers, the associate editor and the editor-in-chief, for every revision round, together with the authors' replies. Comments appear only with the consent of the people who wrote them. Reviewers who chose to sign their report are named; the others are shown as "Referee". Comments are edited for language only, and confidential remarks to the editors are not included.

AUTHORS' RESPONSE TO REVIEWERS

Authors' reply to reviewers

The next pages contain the authors' point-by-point reply to the comments of this revision round, as submitted with the revised manuscript. It is published as the authors wrote it.

Dear Editor and Dear Reviewers;

First of all, thank you very much for your efforts and your comments on our manuscript. We have revised our study based on the reviewers' comments.

Reviewer 1: Thank you very much for your efforts and your comments on our manuscript.

Reviewer2: How had the authors calculated the sample size for this study? please clarify it .

Response:

Sample Size Calculated with PS Power Version 3.0 program. The Type I error probability associated with this test of this null hypothesis is 0,05.

Reviewer3: -However, there are some issues that need to be corrected in the study. First of all, the first paragraph of the Discussion section is in the form of general information. This section can be taken to the introductory part.

Response: It was modified as you mentioned.

-it is recommended that the authors benefit from the following articles that are directly related to the subject of this article (PMID: 31840425, PMID: 30817300, PMID: 31235138).

Response: these articles have been reviewed

Reviewer4: Thank you very much for your efforts and your comments on our manuscript.

Associate Editor's Comments: Please clarified How calculated the sample size for this study? Please Specify the type of study. Most references were very old. The article needs English editing.

Response: The grammar and spelling errors were checked and corrected. Professional support was received from a native English speaker. The grammatical errors were checked and corrected.

The type of study: cross sectional, prospective cohort study.

Best Regards
