ACCEPT 25 Aug 2021

* It is suggested that you explain a practical example in a scenario

and explain the limitations of using the model.

Best regards

AUTHORS' RESPONSE TO REVIEWERS

Authors' reply to reviewers

The next pages contain the authors' point-by-point reply to the comments of this revision round, as submitted with the revised manuscript. It is published as the authors wrote it.

Reviewers' Comments:

Reviewer 1:
** It is suggested to explain a practical example in a scenario*

Regarding the very good comment of the respected reviewer, it should be said that a scenario cannot be used in this article, because it does not conform to the journal format and, on the other hand, the number of words of the article would increase. and Explain the limitations of using the model

By limitations is meant the limitations existing in the formulas, functions and mathematical models, which are mentioned in the text. Best regards Reviewer 2:Your manuscript did not follow the journal's standards, please make it as standard according to the journal terms and bellow Instructions.- TablesTables 1 and 2 are not mentioned in the text correctly. Please, mention Tables 1 and 2 in the text consecutively.- Word Counts According to the respected reviewer's comment, the numbering of the tables was corrected.

We have detected the maximum allowed word count in your manuscript was not in line with the journal standards. For example, maximum allowable of word counts in a Research article must be 3500 words while in your manuscript is 6262. Please modify/correct/change the text of your manuscript and try not to reach the maximum word count.
