Saeed Amini Reviewer

MINOR REVISION 17 Apr 2023

This is a well-designed study that is helpful for readers in the field. It can be accepted with some minor revisions.

Referee 1 Reviewer

REJECT 22 Apr 2023

Dear Authors,
The subject of the work is both significant and interesting. Tele-home care is essential, especially for the elderly. This reveals the authors' meticulous consideration of societal health issues. However, the article includes some major issues that prevent the findings from being published as currently presented. Unfortunately, the working approach and data analysis have problems, which will be discussed in greater detail.
