About this report

This open peer review (OPR) report shows the public comments made on this article during peer review, by the reviewers, the associate editor and the editor-in-chief, for every revision round, together with the authors' replies. Comments appear only with the consent of the people who wrote them. Reviewers who chose to sign their report are named; the others are shown as "Referee". Comments are edited for language only, and confidential remarks to the editors are not included.

MINOR REVISION 6 May 2023

Dear authors,

A nice article, but there are some pitfalls, as follows:
1. The limitation should be added to the discussion section.
2. The term Muslim women should be deleted from the text because the study was conducted with only one group of people.
