MAJOR REVISION 16 Nov 2021

Hello
The submitted manuscript requires revisions.
First of all, the English text needs editing for grammar and English style.
In the second line of the last paragraph of the Introduction, the authors' meaning is unclear.
In the Methods section, the reference for the sample size calculation has not been provided.
Ethics should be explained in one paragraph before the methods of data analysis.
In the tables, the number and percentage columns should be combined, with the percentage written in parentheses after the frequency. Please refer to articles recently published in the journal. Also, the standard deviation should be written after the mean using the plus-minus sign.
The study limitations should be presented at the end of the Discussion.
Please also use references relevant to your text that have been published in the Chronic Disease Care journal.
Thank you

Associate Editor
