About this report

This open peer review (OPR) report shows the public comments made on this article during peer review, by the reviewers, the associate editor and the editor-in-chief, for every revision round, together with the authors' replies. Comments appear only with the consent of the people who wrote them. Reviewers who chose to sign their report are named; the others are shown as "Referee". Comments are edited for language only, and confidential remarks to the editors are not included.

MINOR REVISION 3 Sep 2023

Thanks to the authors and appreciation to the researchers. The manuscript is a valuable piece of research. But MINOR revision is needed in the abstract:
The study design should be mentioned in the first line of the method section of the ABSTRACT.

Editor-in-Chief

MINOR REVISION 3 Sep 2023

Dear Author,
Thank you for submitting the article. It needs some revision. Please revise it based on the reviewers' and AE's comments.

Title: Investigation of the association between dietary acid load and non-communicable diseases: Shahrekord PERSIAN Cohort Study

Dear Mohamad Ali Nilforoushzade

Thank you for allowing us to revise the paper we would like to submit for publication in the International Journal of Skin and Stem Cell. We are grateful to the reviewers and the Editors for their constructive and positive comments on our paper. We have addressed each of the comments in our revision, which has improved the article further. Below we detail our changes and respond to each of the comments in turn.

Best Regards

Dr. M. M.

Comments from the Editors and Reviewers:

Reviewer 1

My comments are attached.

Regards

Authors

Thank you for the most important recommendation. We added additional information based on the comments mentioned in the attached file, each part's corrections were done in the article file and can be seen as track changes, and is given in the table below.

Comment of Reviewer 1	Authors
The background section should provide a more comprehensive context to highlight the significance of facial rejuvenation methods and the problem they address.	Thank you for the most important recommendation. These corrections were made and highlighted in the introduction section of the file.
The keywords should be according to mesh.	Thank you for the most important recommendation. These corrections were made and the keywords section was highlighted in the file
It would be helpful to provide a brief overview of the different types	Thank you for the most important recommendation. These

of lasers used in FR procedures and their specific application in the introduction part.	corrections were made and highlighted in the introduction section of the file.
It would be beneficial to suggest future research direction in the conclusion part.	Thank you for the most important recommendation. These corrections were made and applied in the conclusion section
