OPEN PEER REVIEW

Open Peer Review (OPR)

As a new feature for progressing towards transparency, we decided to open a new window for all of our editors as well as authors titled "**Open Peer Review**". We hope by this new facility, our reviewers will be more motivated and authors will be more satisfied with the review process. We believe that publishing our peer review reports could make a transparent and clear environment for all our efforts within a journal, but not all reviewers tend to publish their comments.

What is "Open Peer Review" process?

An "Open Peer Review" process is making the details of all review process (including reviewers, associate editors, and EICs comments) as "Public" as it is agreed by EIC, Authors, and reviewers.

Advantages of "Open Peer Review" process

- More transparency, constructiveness and tactful comments of the peer review process: leads to an increase in the quality of reviews
- More motivations for all involved roles in the review process
- Authors' satisfactions from the review process: Increases honesty between authors and reviewers
- Education of both authors and new students
- Prevents reviewers from following their individual agendas and leading to the detection of reviewers' conflicts of interests

REFEREE: Reviewer | **Revision** (0) 19 Feb 2019

Dear AE,
Thanks for submitting the manuscript to Thrice.
Reviewers' comments:
1- There are numerous grammatical errors in this manuscript that must be corrected.
2- Please use more recent research in references.
3- The number of studies used in the discussion section is very small.
4- Explain the therapeutic effects of curcumin in Parkinson's treatment.
5- The geographical distribution of Curcumin is mentioned.
Thanks.

REFEREE: Reviewer | **Revision** (0) 19 Feb 2019

Dear AE,
This article needs just some minor revision mentioned in the text.
Thanks,

REFEREE: Associate Editor | **Revision** (0) 19 Feb 2019

Dear EIC
The reviewer(s) have recommended publication, but also suggest some minor revisions to the manuscript. Therefore, I invite the author to respond to the reviewer(s)' comments and revise his manuscript.
Kind regards,

REFEREE: EIC | **Revision (0)**

19 Feb 2019

Dear Author
Thank you for considering Thrita journal. Please revise your manuscript according to reviewers' comments.
Regards.

OPEN PEER REVIEW

Revision (1)

Reply to Reviewers

Ideally, the reviewing process can significantly improve the submitted manuscripts by allowing the authors to take into account the advice of reviewers. Author(s) must reply to all reviewers' comments in a separate Word file, point by point. A "**Reply to Reviewers**" document is submitted along with revised manuscript during submission of revised files, summarizing the changes that the authors made in response to the reviewers' comments. The responses to reviewers' comments specifies how the authors addressed each comment the reviewers made.

You can read the authors' responses to the reviewers' comments in the next page.

Bottom of Form

Dear Reviewer(s)

I thank you for your valuable comments. The manuscript entitled *"The Interaction of Curcumin with One Subunit of Monoamine Oxidase B: In Silico Evaluation" (ID: 90380)* was revised according to the comments. The details are mentioned below.

Sincerely Yours

Reviewers' Comments:

Reviewer 1:

1- There are numerous grammatical errors in this manuscript that must be corrected.

- Dear reviewer,

The grammar and structure of the manuscript was totally rechecked. All the change has been shown in red color with yellow highlight. In this regard, the title of the manuscript was changed.

2- Please use more recent research in references.

- Dear reviewer,

There are few articles before 2010 in the references. The references were revised as it was possible according to the word count limitation.

3- The number of studies used in the discussion section is very small.

- Dear reviewer,

According to the word count limitation for "Brief Report", we had to limit discussion. However, we revised and mentioned another study in discussion section.

4- Explain the therapeutic effects of curcumin in Parkinson's treatment.

- Dear reviewer,

The therapeutic effects of curcumin in Parkinson's treatment has been mentioned in introduction

and discussion sections in brief because of word count limitation.

5- The geographical distribution of Curcumin is mentioned.

- Dear reviewer,

A brief geographical distribution of turmeric has been added in introduction sections because of word count limitation.

Reviewer 2:

- Dear reviewer,

The grammar and structure of the manuscript was totally rechecked. All the change has been shown in red color with yellow highlight. In this regard, the title of the manuscript was changed.

Reviewer 3:

- Dear reviewer,

The grammar and structure of the manuscript was totally rechecked. All the change has been shown in red color with yellow highlight. In this regard, the title of the manuscript was changed.

Thanks
