About this report

This open peer review (OPR) report shows the public comments made on this article during peer review, by the reviewers, the associate editor and the editor-in-chief, for every revision round, together with the authors' replies. Comments appear only with the consent of the people who wrote them. Reviewers who chose to sign their report are named; the others are shown as "Referee". Comments are edited for language only, and confidential remarks to the editors are not included.

AUTHORS' RESPONSE TO REVIEWERS

Authors' reply to reviewers

The next pages contain the authors' point-by-point reply to the comments of this revision round, as submitted with the revised manuscript. It is published as the authors wrote it.

Dear Editor in chief

Zahedan Journal of Research in Medical Sciences

In replay to your request, the following description was corrected and added in the manuscript. I must note that, Shiraz University have not online system for detection of ethical code. This code was give us after they accepted the thesis and we used this number as ethical code.

I hope that the description be enough. If any other question please note me again.

Conflict of Interests:

None of the authors had conflict of interests relevant to the following issues: funding or research support, employment, personal financial interests, stocks or shares in companies related to the studied work, consultation fees, patents, personal or professional relations with organizations and individuals (parents and children, wife and husband, family relationships, *etc*.), unpaid membership in a government or non-governmental organization. None of the authors was an editorial board member or a reviewer of this journal.

Ethics:

All study participants were assured that their data were stored and analyzed without revealing their identification. The study protocol was examined by the Ethics Committee of Shiraz University, Shiraz, Iran (No. 4687/63, 6/27/2013). Because the study involved no intervention, the Committee waived the Ethical approval.
